

# NUISANCE ABATEMENT PROGRAM

NORTH CENTRAL REGIONAL PLANNING COMMISSION

## What is a Nuisance Abatement Program?

The program is designed to assist communities in dealing with nuisances that are a safety hazard, that reduce property valuation and promote a negative image.

It addresses common nuisances such as: unlicensed, inoperable vehicles; uncontrolled weeds, grass, trees, and brush; buildings with broken windows or doors; outbuildings in disrepair; and other health and welfare concerns.

## How the NCRPC Can Help?

The North Central Regional Planning Commission (NCRPC) staff has extensive knowledge of nuisance procedures. We will contract to do third party oversight and provide fair and equitable treatment of all properties.

Contract prices vary by community and the number of parcels.

## Investing in Your Community

A new “comprehensive” Nuisance Abatement Ordinance will be provided by NCRPC to begin program development. Participation in the program will result in:

- Property enhancement;
- Homes with improved valuation, safer approaches and features; and
- Greater neighborhood appeal and community pride.

Nuisance properties, enforcement and ordinances are a common issue for communities. Not sure where to begin? Contact the NCRPC for more information.
