

# North Central Regional Planning Commission

## Request for Quotations (RFQ)

The North Central Regional Planning Commission (NCRPC) seeks to engage a vendor capable of providing the following equipment or its equivalent by no later than July 15, 2025.

Item	Units
MXS, Mode S Transponder w/ADS-B In/Out, TSO-Certified	3
MX Aircraft Integration Kit	4

Educational discounts, if any, should apply.

The NCRPC is tax-exempt. Documentation will be provided when the purchase order is issued.

### End-User

This purchase is part of a SMART grant awarded the NCRPC by the US Department of Transportation to demonstrate how UAS vehicles and related technologies can be used to enhance the capabilities of rural transportation planning and development. One part of the project focuses on improving workforce training programs that expand the use of UAS vehicles which this equipment will make possible given it will enable the Applied Aviation Research Center of Kansas State University to take its program off campus for training purposes.

### Contact Information

Interested parties should submit a brief explanation of who they are along with a price for the named equipment to the following address.

John Cyr  
109 N. Mill St.  
North Central Regional Planning Commission  
Beloit, KS 67420

This RFQ will remain open until the NCRPC makes its decision.
